REMINDER:

1. This is the newly updated finalized mid-term time-table. This time-table has to be adjusted because we take under consideration Sabah and Sarawak students that cannot come early due to the prices of flight fares that very high right before semester opened.
2. After considering all those things, ACAD will not consider ANY EXCUSES FROM LATECOMERS to avoid any complication and consequences reap from that matters.
3. The students that might come early, you have one more day to revise your subjects. This is an advantage for you to study longer.
