Overview:

The Diploma in Interactive Multimedia (DIMM) programme equips students with the capabilities to work as visual and interactive media designers across traditional media and digital tools in a wide range of practises, from creative publishing to interaction design, leading projects from the conceptual stage to publication. Visual and interactive media designers play a crucial role in shaping the look and feel of visual media, and the ways people experience them. Students will be trained with the necessary knowledge in multimedia and hands-on practical experience in all aspect of interactive multimedia, such as multimedia presentation, games, animation, websites, short films, and many other applications.
